Above-Normal Moisture Forecast For Great Plains In September

WASHINGTON (AP) — The U.S. Weather Bureau Tuesday said "precipitation amounts are expected to exceed normal over the Gulf states, Great Plains and Pacific Northwest" during September, but subnormal rainfall is indicated for the Northeast and Southwest.

The Weather Bureau's 30-day outlook for September calls for temperatures to average below seasonal normals over most areas west of the Continental Divide and also in states bordering the Gulf of Mexico. Prevailing above normal temperatures are anticipated from the Ohio Valley and Great Lakes region eastward to the Atlantic Coast.

Cold Front Moves Into State But Heat Likely To Continue

A long-awaited cold front moved into Nebraska Tuesday night, but it was taking its time and the forecast said it might take two days or more to reach southeastern portions—if it ever reaches the area.

Light rain and hail began falling at Chadron Tuesday evening, the Associated Press reported. At 6:30 p.m. the Chadron weather bureau said quarter-inch hailstones were falling.

Meanwhile, prospects appear very slight that the state's sweltering, dry spell will change its tune to provide relief for heat-wrinkled farm lands and burning crops.

There's a possibility of some widely scattered thundershowers in the west and north central Wednesday afternoon and night, but they aren't expected to amount to much in the way of needed moisture. It also may be a bit cooler in the extreme northeast Wednesday and in the northwest Wednesday night. But highs during the day will range in the 90s.

A. E. Anderson, crop statistician in Lincoln, Tuesday reported a marked deterioration in corn in the past week as high

De Witt Girl Killed In Crash Near Beatrice

BEATRICE (P) — Marilyn Schuerman, a teen-aged De Witt, Neb., girl, was killed Tuesday night in a one-car accident about 15 miles northwest of Beatrice on a gravel road.

She was riding in a car driven by Janice Ramaker, also of De Witt. Ages of both the girls were unavailable, but Sheriff E. G. Maxwell said both were teenagers. Miss Ramaker suffered minor injuries but was not hospitalized.

The driver told the sheriff the auto, owned by her father, hit some loose gravel, tipped over and left the road. Miss Schuerman was pinned under the car.

The death raised to 191 the number of persons injured fatally in Nebraska traffic accidents this year, compared with 222 on this date in 1952.

Vacation Extended

FRASER, Colo. (INS) — President Eisenhower extended his fishing vacation an extra day Tuesday after catching his biggest trout since arriving at Byers Park Ranch near Fraser.

West Virginia's Drought Worst In 20 Years

By The Associated Press

Record-breaking, searing heat Tuesday sizzled much of the nation from the Rockies eastward to the Atlantic coast. It caused at least 36 deaths. Hundreds were prostrated. And heat-induced drought in half a dozen states was blamed for crop damage exceeding 200 million dollars.

Readings of 90 or higher were commonplace, and the mercury soared above 100 in many places. Heat records toppled like pins in a busy bowling alley.

The oppressive weather brought a slow-down in business and industry. Hundreds of thousands of workers were sent home from offices and factories because of the heat.

Chicago's 101 degree temperature made the day the hottest Sept. 1 in Weather Bureau history. It was the eighth successive day of 95 degrees or higher temperatures.

OUTLOOK NOT GOOD

The outlook for relief was slight. The Chicago Weather Bureau said much of the nation would bake again Wednesday, and there was nothing in the charts to show improvement Thursday.

Louisville, Ky., was one of the hottest spots in the country with an official 103.

A 97-degree high at Milwaukee set an all-time record for the date.

Farmers expressed serious concern about the lack of rain.

In West Virginia, Agriculture Commissioner J. B. McLaughlin termed the current drought in his state the worst in 20 years. He said the corn crop is "absolutely ruined" and there was little hope for wheat, rye and barley crops next spring.

Dairymen have been forced to sell parts of their herds because of the water shortage, McLaughlin said.

Drought plagued Missouri and Massachusetts, too. L. C. Carpenter, the Missouri commissioner of agriculture, said farm income loss from drought would total 150 million dollars, and Massachusetts Agriculture Commissioner Henry T. Broderick said drought losses would run into the millions.

Official announcement of the sites suggested by the 16 U.N. powers and South Korea presumably was being withheld pending communication with the Communists.

The United States was designated to communicate with the enemy, pursuant to a U.N. General Assembly resolution. Diplomats said an approach to Sweden, asking her to serve as an intermediary, would be made promptly.

U.N. Allies Agree On Peace Site

WASHINGTON (INS) — Allies who fought in Korea under the United Nations command reportedly agreed Tuesday on Geneva, Switzerland, as their top choice for location of the peace conference which must open in Geneva Oct. 15.

Diplomatic sources said the United States was instructed to communicate with the Chinese and North Korean Communists, with Sweden as the intermediary, suggesting that the parley open in Geneva Oct. 15.

Other sites suggested included Honolulu, proposed by South Korea; San Francisco and Ceylon.

Secretary of State John Foster Dulles said there was "a general identity of approach in regard to the time and possible sites for the conference which would be most conducive to its success."

New Order Approves Evening Water Usage

By BILL DOBLER
Star Staff Writer

Mayor Clark Jeary has issued a new order permitting three hours of evening watering after workers succeeded in getting all pumping facilities at the city A Street pumping station back in working order.

Lincoln went for almost a day and one-half with only two-thirds of the normal pumping facilities supplying water mains for Piedmont, College View and other high spots in southeast Lincoln. An insulation failure early Monday morning knocked out a 6.5 million gallon capacity pump which furnished one-third of the pumping capacity for the high distribution system.

Repaired By Noon

By noon Tuesday, workmen had repaired the burned wiring in the damaged pump motor and placed the pump back in operation during the afternoon.

John Robel, whose firm repaired the motor, is the president of Robel Electrical Works, 2348 N. H. He was incorrectly listed in Tuesday's Star as president of the A.B.C. Electric Company.

An engineer at the A Street station, however, said the pump was not working at full capacity. The repairs, he said, were of a stop-gap or temporary nature.

"We have to watch the pump very closely," said the engineer, "to make sure it does not become overloaded."

Pumpage during the day Tuesday was comparatively low.

Many Kids Ride Unsafe School Buses

Nebraska's children are riding to school in buses many of which have been condemned by other states as potential death traps.

According to Freeman B. Decker, superintendent of education, greater controls are needed to regulate the buses and the drivers, who need have only regular licenses to drive them.

Decker said that of the 563 buses in the state, only around 400 actually are buses while the rest are panel trucks, station wagons, and private cars. None of these are required to meet any safety standards, such as escape doors and body construction.

Although the vehicles used to transport the thousands of children to school are inspected twice yearly by the Safety Patrol, there is no penalty for not meeting any standards. The majority of the buses used are purchased from states who have condemned them for use.

Decker said the problem has been brought before the Legislature, but that nothing was done because the law makers said there were not enough such buses to constitute a problem.

Nebraska needs to adopt standards such as those in force in Iowa or by the National Commission on Safety Education, Decker said, in order to insure the lives of Nebraska children using the vehicles.

Envoy 'Wounded'

TEHERAN (INS)—The Soviet Embassy claimed Tuesday night that Russian Ambassador to Iran Anatoli Lavrentiev had suffered a serious heart attack, but reports persisted that he had wounded himself in a suicide attempt.

News Around The Globe

Rescue Nears

EDMONTON, Ont. (P)—Operations were under way Tuesday to rescue two Roman Catholic missionaries and four Eskimos, sighted on the bleak Arctic Coast. They had been missing since Aug. 12.

A communications blackout between Edmonton and the North has held up information since the report that the RCMP detachment at Coppermine, N.W.T., 1,000 miles north of Edmonton, was sending a plane or boat to the scene.

Firing Confirmed

UNITED NATIONS, N. Y. (INS)—The U.N.'s highest appeals court confirmed Tuesday the dismissal of nine American secretariat employees but set aside the firing of 12 others suspected of questionable loyalty to the United States.

Four of those whose dismissals were overturned were ordered reinstated, if Secretary-General Dag Hammarskjold approves. If he does not, the U.N. will have to pay them a heavy back pay indemnity.

Probe Urged

WASHINGTON (P)—A House subcommittee said Tuesday that union leaders, using "gangster tactics" of violence and terror, paralyzed the building trades industry in Kansas City for two months. The subcommittee called recent labor disorders there "one of the most forbidding chapters in the history of American unions."

It urged an immediate Grand Jury investigation of "possible violations of the Taft-Hartley Labor Law and the perjury statute.

PW Is AWOL

TOKYO (Wednesday) (INS)—The Army today confirmed that a liberated American war prisoner known as "Slick" and marked for death by fellow repatriates went AWOL from a Tokyo Army hospital five days ago.

The Army said the fugitive soldier is apparently still afraid to return home because Americans held with him in Communist captivity have vowed vengeance. They accused him of "squealing" to Communist guards and officials in a North Korean POW camp.

Mrs. J. Simmons Dies Here At 70

Mrs. Julia Simmons, 70, died Tuesday morning.

She was the widow of James Simmons, post office employee who died in 1935.

Coming to Lincoln with her parents when she was six, Mrs. Simmons was graduated from Lincoln High School and the Chicago Art Institute.

Mrs. Simmons was a charter member of the East Lincoln Christian Church, she was named deaconess emeritus by the church.

Mrs. Simmons also was a member of Eastern Star 148 and the Letter Carriers Auxiliary.

Survivors are four sons, Clayton W. and Robert O., both of Lincoln, Kenneth A. of San Antonio, Tex., and Max A. of Merrill, Wis.; three grandsons and three granddaughters.

Wainwright was felt."

Truckers Warned Not To Abuse Law

State Sen. K. W. Peterson of Sargent warned Tuesday that if truck operators abuse the truck tolerance bill passed by the last Legislature, he will move at the next session to change the bill.

In a letter to the Associated Press, Sen. Peterson wrote "as introducer of LB 114, the so-called truck tolerance bill which I call the stiff penalty bill, I had only one thought and that was to stop overloading."

"As a former truck operator I believe a tolerance feature is absolutely necessary."

Then Sen. Peterson revealed, "however, through the grapevine information has reached me that one transport operator has in mind increasing the carrying capacity of his transports so that the limit set by tolerance would be his normal operating limit."

He commented "this action on the part of the operator is not what I had in mind and if it is followed by any operator I will use what influence I have as a state senator, assuming I continue, and otherwise to have the next session of the Legislature reduce the legal axle limit to 18,000 pounds."

Peterson said he was not the introducer of the bill with the idea the tolerance feature would apply to other than unusual conditions such as snow, ice, mud, ships' error, shifting of loads, petroleum expansion and contraction, and scale tolerance because of error.

He concluded "my only hope is that all judges follow the law."

Council Receives Diagonal Plan

The City Council has received for consideration a joint agreement with the Board of Education for the acquisition and exchange of land for a planned school expansion and construction of a part of the new south-east diagonal.

Neither the board nor the city have acted upon the agreement.

The agreement will give the city a total of 11 pieces of ground, some just very small pieces. The board will receive certain properties east of Lincoln High School and other lots between 22nd and 24th north of the school Administration Building.

City property to be acquired by the board will be auctioned off and bought by the board. The city, on the other hand, will buy board property for the same total amount of money so no permanent exchange of funds will be made.

The agreement calls for the abandonment of Randolph from 22nd to 24th and construction of a by-pass from 21st and G southeast to F and thence northeast to 24th and Randolph. Land acquisition and construction of the by-pass is estimated at from \$140,000 to \$190,000 — to be shared equally between the city and the board.

PVT. SINGLETON

Pvt. Singleton Expected Here About Sept. 15

A letter received by the family of Pvt. Jessie Singleton, 22, recently exchanged POW, reports that he expects to return home to Lincoln about Sept. 15.

The message, sent to his wife, Mrs. Jessie Singleton, who with her daughter, Sandy, lives with her parents, Mr. and Mrs. Earl Wixson of 2317 So. 9th, was dated Aug. 25th, the day after Pvt. Singleton's liberation. The released POW wrote that he plans to come directly to Lincoln and that released men were being sent directly home after arriving in the States.

No special homecoming plans have been made yet by the wife's family here.

Pvt. Singleton, who entered the service July 1952, was a member of the 555th field artillery battalion of the 5th Regimental Combat Team. His family in Lincoln was notified of his release by a Star news room teletype report.

Singleton is the second Lincoln POW to be exchanged, the first being Frank Effinger.

Ramsay Tells Exchange Club Of Visitor Friend

Ray Ramsay, city personnel director, told Exchange Club members about his "most unforgettable character" who he said is the most remarkable individual he has ever known.

The subject of his talk was Dr. Raphael Estavas, a native of Spain who came to the United States when he was five and has been a physician in the interior of Panama ever since he was graduated from Tulane in 1922. Dr. Estavas and his wife will be visitors in the Ramsay home later this fall.

2,000,000 BARRELS CAN'T BE WRONG!

Never Before Has One Distillery Produced 2,000,000 Barrels of Top Kentucky Bourbon

Never before has one Kentucky distillery produced the incredible total of 2,000,000 barrels of fine bourbon. That's over 13 billion drinks — by popular

demand — thanks to you! Your appreciation of Old Stagg's consistent quality has made it America's largest-selling straight Kentucky bourbon.

Placed in America's first and only one-barrel bonded warehouse — this historic barrel of Old Stagg will patiently age and mellow for six long years.

Bigger Value than Ever!
Try it Today!

Senator Dooley In Favor Of Unicameral

State Sen. Tom Dooley of Papillion, just returned from a Colorado vacation, strongly criticized the movement to return to a two-house government in place of the unicameral.

"I don't see anything we would gain by going back to the two-house system," he said, adding that "it would only put the issues back in the hands of politicians."

He himself a member of three legislative sessions, Sen. Dooley said that the present system places the responsibility of issues on the individual "who votes his convictions and not those of a political party."

The senator added that representation now requires a senator to answer to the people in his district, not to a political party, and that the unicameral system greatly reduces the cost of the legislative branch of government.

Questioned on the possibility of a special session, the senator said he "couldn't see any good to a call back," adding he thought it better to wait and let the Legislative Council considering the "study the problem."

Candidates Found For 'Meanest Thief' Title

FALLS CITY, Neb. (AP)—The Falls City Lions Club has some candidates for the "meanest thief" title.

Thieves have been taking the backs off Lions Club gum vending machines to take the change. Profits from the machines are used to buy overshoes for needy children.

No special homecoming plans have been made yet by the wife's family here.

Pvt. Singleton, who entered the service July 1952, was a member of the 555th field artillery battalion of the 5th Regimental Combat Team. His family in Lincoln was notified of his release by a Star news room teletype report.

Singleton is the second Lincoln POW to be exchanged, the first being Frank Effinger.

Ramsay Tells Exchange Club Of Visitor Friend

Ray Ramsay, city personnel director, told Exchange Club members about his "most unforgettable character" who he said is the most remarkable individual he has ever known.

The subject of his talk was Dr. Raphael Estavas, a native of Spain who came to the United States when he was five and has been a physician in the interior of Panama ever since he was graduated from Tulane in 1922. Dr. Estavas and his wife will be visitors in the Ramsay home later this fall.

NEW to take back to school—PARKER PENS

with

Electro-Polished Points

You'll get glassy, ball-bearing smoothness all round each point, on these famous "51" and "21" pens. The Platinium pellet, exclusive with Parker, is known for the way it breaks in to your own style of handwriting. And now a special process makes even this amenable point more smooth. Drop in and try one soon!

On 'Going It Alone'

Each year the gathering of the American Legion provides a colorful spectacle. The St. Louis convention now in progress is no exception. The parade participated in by thousands of service men may be more appealing to the eye, but actually the speeches before the Legion and the resolutions adopted by that organization frequently are more arresting and challenging to thought.

A former national Legion commander, Donald R. Wilson of West Virginia, delivered about the most slashing attack upon the United Nations yet voiced by any responsible spokesman in this country. He urged his buddies to be on the watch to make sure that the United Nations "doesn't eventually give away your children, your rights, your citizenship and your flag."

More to the point, the Ohio delegation to the Legion convention voted down a resolution by its executive committee supporting American withdrawal from the United Nations. The delegation, it would appear, is much more temperate than a fire-eating executive committee. There were other resolutions along similar lines before the Legion's

Standing Foreign Relations Committee with the prospect that before the legionnaires packed up their duds and took leave of the convention city, there would be a real battle over America's role in the United Nations.

Whether sentiment expressed in an organization with hundreds of thousands of members—an organization as symbolic in this country as the Legion is—will hasten a showdown on America's role in the world can be only speculative. But that showdown is coming. More and more, impatience is mounting. Month after month suggests increasing cynicism toward the United Nations and its work. We hear increasingly the talk that it is a debating society, dedicated to conversation, and short on real accomplishments. This is natural and to be expected, but also very dangerous.

We can go it alone if we choose—withdraw from the United Nations as a final gesture of impatience or disillusionment—but when we do, then for a second time we make a mistake.

We made a serious, grave mistake years ago and we should not repeat it.

Right Here At Home

Novelist Edna Ferber recently scolded New Yorkers for having "the dirtiest streets in the world."

Evidently she has never visited the French quarter in New Orleans.

There have been times when New York City's visitors could wish for cleaner streets in that crowded metropolitan center, but conduct of the city's business suggests that other matters might merit attention even more than its streets.

Which is to say that there is no political subdivision of government in America today that drags its feet more than the cities. We criticize Big Government in Washington. When we do, there is the implied suggestion that local government itself does better job. Does it? When we really get down to

facts, in spite of all of our criticism of the federal government, is the average job in American municipalities better than that which is being done in Washington?

Or jumping to the state level we find from reports that the cost of state government is at this time at a peak—higher than ever before in history—requiring more than 10 billions annually from the taxpayer of the 48 states.

It is close to us, and incidentally very dear to us, and because it is of our own creation, as we say, we are inclined to overlook its weaknesses. No government in this country—unless it be on the county level—has given more concern than city government.

Malenkov's Show

Efforts by Prime Minister Malenkov to sway German voters in the approaching election by inviting the two top leaders of East Germany to a love feast shouldn't fool anyone this side of the Iron Curtain, least of all the Germans themselves.

It was a ludicrous spectacle, this gathering of the clan. There was Malenkov and Molotov—Beria was unable to attend—exchanging views with the figurehead premier of East Germany, Otto Grotewohl, and Deputy Premier Walter Ulbricht. The Russians made "concessions" intended to build up a picture of a free and independent East Germany bargaining on even terms with the Kremlin. Moscow promised to return German prisoners of war who were not being held for serious charges of war crimes, occupation costs of the Red Army were reduced, and offers of food and goods were made.

The German Communist press, of course, played up the event as evidence of Soviet Russia's benevolent intentions toward Germany. As spice to the story, there were numerous attacks on West German Chancellor Adenauer intended to hurt his chances at the polls on Sept. 6.

The desired effect could hardly have been achieved. The West Germans, even the least politically astute among them, have shown many times in the past that they are not taken in by these Russian maneuvers. It was primarily a show for the Communist world, where black can be said to be white and no one will dare, publicly, to deny it.

Grounds For Complaint

A man down in Paducah, Ky., complains that after buying a new car he encountered some difficulties. The paint cracked and chipped, radio speaker failed, chrome marred, it didn't steer properly, lacked normal power, emergency brake wouldn't work, rear end made a grinding noise, bearings went bad, ignition system caught fire, a wire worked through the upholstery, and it burned 12 quarts of oil in the first 4,000 miles.

The man has filed suit for \$3,308.87 against the motor company which sold him the car. Suggested first question for the defense attorney: "Yes, but how many miles to the gallon did you get?"

A Measured Purchase

The Air Force ordered 212,000 steel measuring tapes two years ago when it had 38,000 on hand, congressional investigators discovered. Gen. Nathan F. Twining, Air Force chief of staff, says he is also puzzled by the purchase, but it happened before he took over his post. Everything is normal: Congressmen are investigating, the Air Force is up in the air, and the taxpayer digs in his pocket again.

And In Proper Order

Before the United Nations could get to work on the Korean Peace Commission, it had to deal with the problem of India. In these times you have to take your crises one at a time.

Doctors Warn Against Boric Acid In Baby Talc

WASHINGTON — The Food and Drug Administration is quietly gathering evidence that the so-called "harmless" boric acid contained in baby talc and ointments has actually caused the death of scores of infants in recent years.

"When all the evidence is in," said one FDA official, "we're going to insist manufacturers put some type of warning label on their products."

"In the meantime," he continued, "we're encouraging manufacturers to stop the use of boric acid in any product where a substitute can be found."

For years, borated talc and ointments have been standard items in almost every home medicine chest. Mothers have considered it a routine, safe treatment for minor cuts and rashes—diaper rash in particular.

No one knows how many infants have died as a result of boric-acid poisoning. Generally, such deaths have been attributed to some other cause. According to Dr. James Ducey of New York's Roosevelt Hospital, "infant deaths often attributed to meningitis and pneumonia actually are caused by boric acid in a powder applied by mothers in a mistaken belief that it has soothing therapeutic value."

"The error in diagnosis occurs," says Dr. Ducey, "because autopsies in these cases are so rare. Relatively large quantities of pure boric acid are available for absorption from ordinary dusting powders containing boric acid."

What started the Food and Drug Administration's probe of boric acid in baby talc was medical reports such as that by Dr. Russell Fisher, chief medical examiner of Baltimore, who as early as 1951 wrote:

"No attention has been paid to the possibility of absorption of boric acid from powders or other preparations applied to the surface of the body. That there is real danger of poisoning by boric-acid absorption through areas of dermatitis (skin infection), has been learned during our study of the unexpected deaths of infants in Baltimore in the past two years."

"The usual history," warned Dr. Fisher, "is that of the development of a 'diaper rash' in an infant under one year of age, and the treatment of the dermatitis by repeated application of boric acid in a starch or talc mixture . . . It is considered highly probable that many cases of fatal boric-acid poisoning occur but go undiagnosed."

Another warning published in the AMA's Journal of Diseases of Children by Drs. Clement Broke and Thomas Bogs stated: "Boric acid and sodium borate are sufficiently poisonous to cause severe symptoms and death when used in amounts commonly considered to be perfectly safe. Boric acid is readily absorbed by a number of different routes

U.S. strategists are now convinced Russia will never unite East Germany from its apron strings. Best intelligence from inside the Kremlin is that the purged secret police chief, Beria, favored an independent Germany as a buffer between the East and West. He was opposed, however, by Premier Malenkov, who would not agree to cut the Communist ties to Germany and permit free elections.

More bad news for farmers: Farm costs, including wages for farm hands and the prices of farm equipment, have climbed another 1 per cent while farm prices have dropped a record 12 per cent.

The British will soon test precision atomic bombing at their Australian proving ground. The British have so perfected radar aiming with an atom bomb they can just about hit a dime.

Visiting Pair Don't Mind Lincoln Heat

By MARILYN K. SWANSON
Star Staff Writer

There are at least two persons in Lincoln who are not complaining about the heat these days.

Lt. Col. and Mrs. Dean Stern, who returned to the U. S. after living in Pakistan for the past two and one-half years, say Lincoln weather is "very pleasant."

Mrs. Stern says the Pakistan brand of hot weather is when "you have a temperature of 90 degrees and the humidity is 90 per cent."

Col. Stern was a member of the 65-man team of United Nations military observers which had the job of seeing that India and Pakistan armies were held in position until their cease-fire agreement was resolved into a political agreement.

The two countries have been battling for possession of Kashmir—a province east of Pakistan and north of India.

Col. Stern gave a hint of what may lie ahead in Korea:

"After the cease-fire agreement, the two countries decided to let Kashmir decide by free election to which country they wished to belong. First, they insisted that free elections could not be held with the armies in the province. Then, they couldn't decide on the timing for the withdrawal of the armies. In the meantime, we just 'upped' the cease-fire agreement."

The Sterners were encouraged by the Pakistani people's faith that communism could never find ready listeners in their country. "They're convinced that their religion (Moslem) will block any Communist advance," the colonel added.

Col. Stern's next assignment is professor of military science and tactics at the University of Dayton, O.

The Sterners and their three daughters—Michael Ann, 7; Jan, 4, and Cindy, 3—are visiting Mr. and Mrs. Dean Cooper of 4120 B.

Ice Box Law Near Adoption

An ordinance prohibiting the storage of ice boxes or refrigerators where they would be unattended and accessible to children has been passed on first and second reading by the City Council.

The ordinance permits such storage if the door or lock of the box or refrigerator has been removed or if the door can be opened from the inside. Conviction of violation of the ordinance carries a penalty of a fine not to exceed \$100.

The ordinance was introduced by Councilwoman Mrs. Fern Hubbard Orme. Mrs. Orme had earlier showed concern over the fact that 11 children across the nation had suffocated after they became locked inside abandoned ice boxes and were unable to open them.

The Council passed on three readings an ordinance placing into effect salary increases approved last week by the Council for city employees for the 1953-54 fiscal year. Besides four \$25 a month individual increases, the ordinance grants a \$10 a month general increase, \$15 a month for firemen and five cents an hour more for employees on an hourly basis.

Nebrascans Less Thirsty This Year Than In 1952

Nebrascans are drinking less—but not much—if indications from the State Liquor Commission are any guide.

Commission revenue for the first eight months of 1953 ran a near dead heat with 1952, with revenue for 1953 reported at \$1,902,592 as against \$1,918,744 for the previous year.

August revenue this year was \$226,487 as against \$220,386 for last year.

2nd Kansan Held in Robbery Try

WAHOO, Neb. (INS)—A second Beloit, Kan., man is being held by Wahoo authorities on an attempted robbery charge.

The prisoner, identified as Jesse Cruse, was arrested by Omaha police and turned over to Wahoo officials.

James Hull, 32, also of Beloit, was arrested in Wahoo last week. The two men are involved in the theft of \$500 worth of tools from a Council Bluffs, Ia., school construction project.

The tools were found in a car driven by Hull.

Niklaus Files Suit Against Dobson, Robinson Firms

A \$952,256 suit against Dobson and Robinson Contractors and its performance bond carrier, Universal Surety Company, has been brought in Lancaster District Court by William Niklaus.

Also named defendants were Arthur A. Dobson and Gale E. Robinson, as partners of the defendant contracting firm, City Engineer David Erickson, Raymond A. McConnell, Lincoln newspaper editor, Mayor Clark Jeary and former Mayor Victor Anderson.

The petition, filed Tuesday by Niklaus "on behalf of Lincoln citizens and taxpayers," states 41 causes of action involving as many sewer and water main contracts between the defendant contractors and the city from September, 1947, to Aug. 17, 1953.

Niklaus contends these contracts were null and void under Sections 15-603 and 18-301 Nebraska Revised Statutes (1943).

Second Baptist Plans Vote On New Pastor

The Second Baptist Church congregation will meet at 7:30 p.m. Wednesday to vote on a pastor to succeed Dr. E. E. Smith, who resigned to become minister of First Baptist Church in Omaha.

The Rev. Mr. Smith became pastor of the Omaha church, the largest Baptist church in the state, Tuesday. He had been in Lincoln the past four years.

Social Security Lashed By Insurance Executive

E. J. Faulkner, president of the Woodmen Accident Company, termed Social Security a "handout" in a speech at a Rotary Club luncheon Tuesday at the Cornhusker Hotel.

Charging that the system fails to do what it was set up to accomplish, Faulkner described it as "a tax on production—under which the people who work today subsidize the aged."

He said 70 per cent of those persons retired do not receive benefits under the program and that there are "large segments" of the working population outside coverage of the program.

Faulkner recommended that the program be placed on a "pay as you go basis."

Sanitation Main Weapon In Polio Fight, Googe Says

"Sanitation is still the principal weapon in polio prevention," Dr. James T. Googe, Lincoln-Lancaster County Health Department director, said Tuesday in reminding residents that September is polio's peak season.

"Don't put all your faith in gamma globulin," he cautioned. "Well-known principles of sanitation can do much in polio prevention."

Therefore, careful washing of hands, sanitary eating and drinking utensils, sanitary disposal of human wastes, and control of flies are basic rules in polio prevention, he said.

Brilliant performance! Stand-out gas-saving! Low-swung new safety!

What a car! What a buy! Exciting new Studebaker!

It's low in height! It's low in upkeep! It's low in price!

Take a look! Take a ride!
You'll take it home!

THIS strikingly original Studebaker has the big-money look and out-ahead smartness of a very exclusive car. But it's actually way down to earth in price.

Come in and see for yourself what a bargain buy a new Studebaker is. Take a look—and then take a ride—and you'll want to take delivery right away.

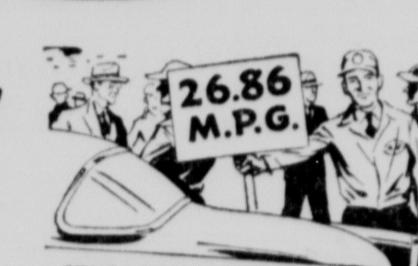

The car pictured here is just one of nine Studebaker body types that are selling at prices sensational low. They're all brilliant performers—all gas economy stars—all stand-outs in safety.

Come in and select yours at once—a sedan, coupe or hard-top—a brilliantly powered Studebaker Commander V-8 or a big, impressive Studebaker Champion in the lowest price field.

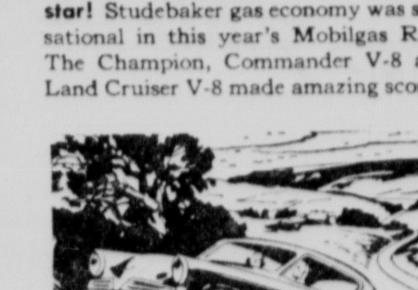

Best used car buys in town!
Big selection of all popular makes—priced to move out fast. Especially fine buys in late-model used Studebaker Commander V-8s and Champions.

Marvelous new Power Steering

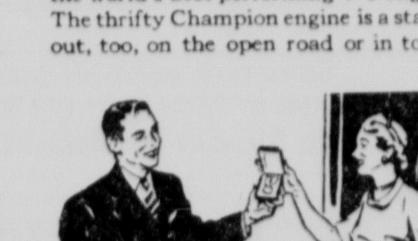

This great advancement is available in all new Studebakers. It's extra cost—and extra marvelous. Automatic Drive—or gas-saving Overdrive—also may be had at extra cost in all models.

STUDEBAKER Champion

The new Studebaker sparkles with "go!" The Studebaker Commander has the world's best performing V-8 engine. The thrifty Champion engine is a standout, too, on the open road or in town.

Top Corn Area Suffers Most Deterioration

High Temps, Winds Take Heavy Toll

"Marked deterioration of corn occurred during the past week" with the main corn producing area showing the most damage, the State-Federal Bureau of Agricultural Statistics noted in the weekly crop-weather report. Crop Statistician A. E. Anderson said "high temperatures and winds caused corn to fire. Every district of the state showed reduced outlook."

The weekly survey showed some of the corn would improve if moisture is received but much of it is too far gone.

The Panhandle received some rain and the outlook is still good there and in north central Nebraska, counties bordering the Missouri River, in northeastern Nebraska and a few counties in southeastern Nebraska.

Cutting Crop For Silage

There were many reports of corn being cut for silage.

About 8 per cent of the corn had matured by the past week end, 45 per cent was in the dent stage, 37 in the hard dough stage, 8 in the roasting ear stage and 2 in the milk stage.

Reports indicate that the damage from the corn root worm was "rather extensive."

But irrigated corn is still promising.

On Aug. 10, the U.S. Department of Agriculture estimated Nebraska's corn crop at 233,344,000 bushels or 32 bushels per acre. This was a drop from the previous month's prediction of 255,220,000 bushels (35 per acre).

Last year's corn output in this state stood at 261,960,000 bushels—37 bushels per acre.

There was a little seeding of winter wheat in Western Nebraska, especially in the Panhandle where the moisture situation is very favorable. The moisture supply is short in most of the balance of the wheat area.

Other reports:

Sorghum crops showed some heat damage but most of the crop could still be improved by rain.

The condition of pasture and range dropped sharply. Most of the pastures are short. Pasture feed is still quite favorable in the northwest range area.

Condition of alfalfa dropped considerably. The outlook for the third crop is very poor. An exception is northwest Nebraska. Dry soil conditions have delayed seeding of alfalfa and grasses.

Reports indicate the potato blight is becoming serious. Shipments of early potatoes in central Nebraska totalled 368 cars Aug. 28 compared to 602 last year.

Feed Supply Ample

The feed grain supply is reported generally ample. There is an increasing number of reports of short supply of hay and forage. Nearly two-thirds of the counties are reporting a shortage of range and pasture. About 86 per cent of the counties report a short supply of moisture, with only a few in western Nebraska reporting ample. Subsoil moisture is reported short except in northwestern areas.

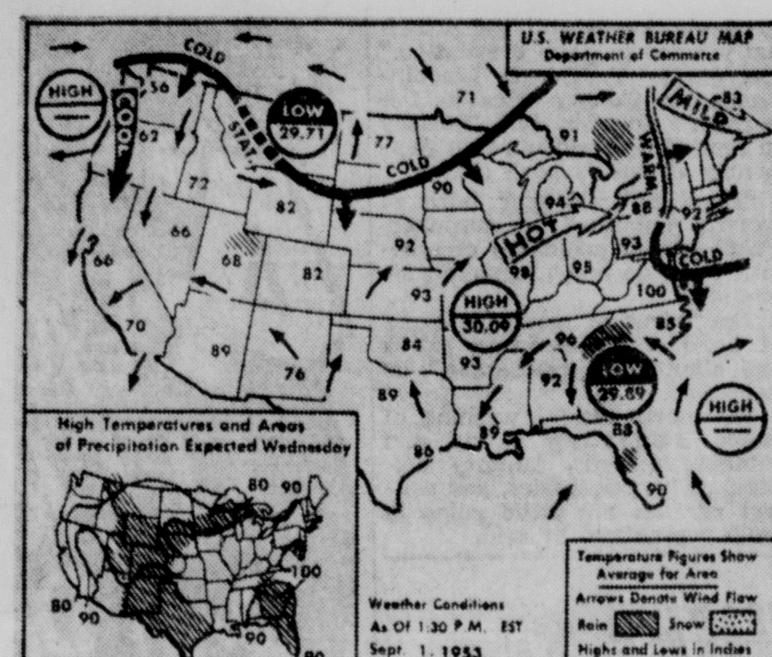

Shipments of cattle and calves to country points were down 14 per cent in July. Shipments for the first half of the year are 10 per cent above last year.

Shipments of sheep and lambs were down 20 per cent in July and also down the same per cent corn belt states. For the first six months. For the down 30 per cent for July and down 15 for the first six months.

Precipitation for the week:

Central Division 01

Western Division 06

No Change In Midwest Seen

Scattered showers and thunderstorms are forecast for Wednesday for Florida, the south Atlantic states, Texas, the Rocky Mountain states, the upper Missouri Valley and the Great Lakes area. A few scattered thunderstorms also are due in northern New England and westward through Tuesday night.

Plans Move Ahead For Five Armories For National Guard

Col. H. R. Turner of the adjutant general's office said Tuesday that plans will be pushed for proposed National Guard armories in North Platte, Gering, Scottsbluff, Broken Bow, and Fremont—locations where sites have been acquired.

Construction might begin at all five cities next year.

Hastings presently heads the Nebraska National Guard's building priority list.

The Hastings project went to the top of the list because the school board bought the old fairgrounds site there for a new high school and is pressing for the ground so construction of the school building can proceed.

Hastings Plans Revised
Brig. Gen. Guy N. Henninger and the engineer, Wilmer Johnson of Wahoo, are en route to Washington with the revised plans for the \$145,000 Hastings project so bids can be taken shortly.

Col. Turner said the architect is to get the "go-ahead" on revising plans for the Grand Island armory, since agreement has been reached with the army about including space in the building for some reserve units which now use rented space at Grand Island.

This change means the Grand Island building will be slightly larger than originally planned, and part of it will be two-stories in height. The reserves are putting about \$39,000 into the building as their contribution to the cost.

Construction is expected to begin at both Hastings and Grand Island yet this year.

Matching Funds On Hand
As for the next five cities listed, the guard office here is not listing any one ahead of the others, but hopes to present all to Washington authorities at the same time for early approval, since the state has matching funds on hand out of the state building fund.

A priority list made up in Washington late last year did not contemplate action on some of these projects including North

Norfolk Blaze Damage Placed At \$50,000

Flames Out Of Control For Hour

NORFOLK, Neb. (AP)—Damage was estimated to be at least \$50,000 in a fire which raged through the Arkfeld Manufacturing Co. here Tuesday.

One of the owners, G. E. McFarland, made the loss estimate.

McFarland said the fire apparently started when fumes from one of the four spray paint guns being used exploded. As fumes from the other guns ignited, the 14 men working in the plant fled to safety.

Mrs. J. E. Harsch, a co-owner, attempted to call the fire department but just as she asked the operator for the department, the line went dead.

Telephone Operator Betty Tining recognized Mrs. Harsch's voice and called firemen. A few moments later another alarm was turned in from a nearby store.

The fire started about 11 a.m. and was brought under control after an hour's battle by Norfolk firemen using three hoses and a truck pump.

The blaze burned out the rear portion of the building and badly damaged the rest of it.

The firm makes livestock waders. The owners previously had operated the Norfolk Maytag Co., which was burned in June, 1952.

Pair Face Charge Of Taking Stolen Car Across Lines

NORTH PLATTE, Neb. (AP)—Thomas Nelson Stinson Jr., 20, and Lamont Lee Croft, 23, were being held in Lincoln County jail in lieu of \$5,000 bonds on federal charges of transporting a stolen car across state lines.

The pair was apprehended by Lexington, Neb., police and arraigned before U. S. Commissioner Horace Crosby in North

Platte.

William H. Williams, special agent in charge of the Omaha Federal Bureau of Investigation office, announced their arrest.

The men were driving a 1947 car, which officers quoted them as saying, they took at gunpoint at Plymouth, Utah. A .45 caliber loaded revolver was found in the car.

A 20-year-old woman also was in the car, but was released as having no connection with the auto theft.

Stinson told police his home was in Montana and Croft said his was in West Virginia.

Candidates For Presidency Of Concordia Are Announced

SEWARD, Neb. (Lincoln Star Special)—The 17 candidates for the presidency of Concordia Teachers College here have been announced by the school's board of control.

The man to whom the job will be offered will be determined during an Oct. 15 meeting of four representatives from the college and the Lutheran Church, Missouri Synod.

The nominations which the four representatives will consider were made by the congregations of the entire synod.

The representatives will be: Dr. John W. Behnken, St. Louis, Mo., president of the Lutheran Church, Missouri Synod; A. F. Wegener, Chappell, president of the Southern Nebraska District; Dr. Henry Gruber, Milwaukee, Wis., chairman of the Board for Higher Education of the church; and William Leppin, Kearney, secretary of the Concordia Board of Control.

Dr. A. O. Fuerbringer left the presidency vacant in August when he resigned to become president of Concordia Theological Seminary in St. Louis.

Dr. L. G. Bickel, dean of Concordia, has been acting as president since that time and is him-

self a candidate for the office.

Two of the candidates are already known on the Concordia campus. They are: Prof. Walter F. Wolbrecht, president of the St. Paul's College, Concordia, Mo., and Prof. George Beto, president of Concordia Junior College, Austin, Tex. Wolbrecht was the business manager of the Seward school from 1948 until 1952 and Beto delivered this year's commencement address at the school.

The other candidates are:

The Rev. Herbert Bemer of Cincinnati, Ohio; The Rev. Hubert Bruewesman, Milwaukee, Wis.; Prof. John F. Chotik, English teacher at Concordia Teacher's College, River Forest, Ill.

The Rev. Paul M. Freiburger, Billings, Mont.; Prof. Albert G. Hugel, dean of students at Concordia, River Forest, Ill.

Prof. Wilfred Kruse, registrar at Concordia, River Forest, Ill.

Prof. Paul L. Land, principal of Lutheran High School, St. Louis.

Prof. Carl S. Meyer, principal of Luther Institute, High School, Chicago.

Prof. Albert G. Meyer, president of Bronxville Collegiate Institute, Bronxville, N. Y.

The Rev. Theodore C. Moeller, Brooklyn, N. Y.

The Rev. Edgar J. Mundinger, Kansas City, Kan.

Prof. Roy Clarence Peters, St. Louis.

Prof. W. A. Puehler, president of Concordia College, St. Paul, Minn.

Prof. L. C. Wuerfel, dean of Concordia Theological Seminary, St. Louis.

Survivors include his wife, three sons and one daughter.

Man Claiming Loss Of Memory Freed

PLATTSMOUTH, Neb. (AP)—A man who claimed he had suffered a loss of memory and had wandered about eastern Nebraska for two weeks subsisting on field corn has been released.

Sheriff Tom Solomon of Cass County, who identified the man as Jess M. Hinejos, a packing house worker from Denver, said Hinejos had been released and was planning to go to Omaha to look for work.

Hinejos was picked up on a country road near Murray a week ago, wearing only a T-shirt and shorts. Solomon said Hinejos reported he had left Denver about a month ago and last remembers looking for work in Lincoln. He said he had never suffered loss of memory before.

Float Of VFW Wins Cuming County Parade

WEST POINT, Neb. (AP)—The Veterans of Foreign Wars Post was the principal winner in the float division of the Cuming County Fair parade.

The VFW float featured a Goddess of Liberty, holding the torch in her right hand and the constitution in her left.

Second place in the float division went to the American Legion Auxiliary, for a float featuring an immense basket of poppies.

Third and fourth places went to Christ Lutheran Church of Wisner and St. Paul Lutheran Church of West Point.

In the 4-H float division, the Style Teens 4-H Club won first, Immanuelites second and Logan Busy Bees third.

Top places in school exhibits on the fairgrounds included:

City Schools: 1. West Point Public School; 2. Beemer; 3. Wisner.

Rural Schools: 1. District 7, Lawrence; 2. District 6, Mr. Ruth; 3. District 28, Ernest Kaufman, teacher.

Parochial divisions: 1. Guardian Angel, West Point; 2. St. Anthony, West Point; 3. St. Boniface, West Point.

Sponsors of the Cuming County Fair claim it is one of the largest in the United States.

Army Mothers Hear Talk On C.D. Participation

Violet Sheffert, member of the state women's advisory committee for civil defense, discussed the objectives of women's participation in civil defense at a meeting of Army Mothers Post 5.

Mrs. Sheffert stressed the importance of home protection training and adequate civil defense programs in all schools in the nation.

Fish Get Break—Wash Water Ruled Out Of Streams

The State Attorney General's office ruled Tuesday that gravel pump operators should not allow wash water to run off into state streams because of a possible harmful effect to fish.

The opinion was requested by Paul Gilbert, executive secretary of the Game, Forestation and Parks Commission.

Specifically, the opinion referred to wash water runoff from gravel pump operations and noted that fine sand which is part of wash water is harmful to aquatic life. No mention was made of waters that do not contain fish.

It was pointed out that there is nothing which would indicate the Legislature intended to exclude gravel pump operators from the law prohibiting corporations or others from dumping refuse into state waters. It is necessary, the opinion stated, only to determine that matter drained into the stream is harmful or injurious to fish, and that it was drained into waters which have been stocked by the Game Commission.

Lincoln County Given Valuable Gift Of Books

NORTH PLATTE, Neb. (AP)—William E. Shuman, retired North Platte attorney, has given more than 100 volumes of law books valued at \$1,000 to the Lincoln County District Court.

Shuman's gift provided that the books be available to all attorneys in the Thirteenth judicial district.

Court Clerk C. J. Leth said the gift made the district library one of the most complete in the state.

Elmer Corzine, 57, Of Omaha Is Dead

OMAHA (AP)—Funeral services were being planned for Elmer Corzine, 57, founder of the Home Realty Co., who died in a hospital here.

Corzine, a veteran of two world wars, had suffered a heart attack last week and entered the hospital Friday.

A native of Ana, Ill., he came to Omaha in 1920. He founded a retail furniture business and disposed of it when he entered the Navy in 1942 as a reserve officer.

Corzine also served as port director at Galveston, Tex.; Cabanilla in French Morocco and in Manila.

Survivors include his wife, three sons and one daughter.

Sgt. Thomas Plans To Purchase Car

MACY, Neb. (AP)—Sgt. Solomon Thomas of Macy is doing what a number of recently liberated prisoners of war are doing—buying on a car.

The sergeant decided since his mother lives two miles out in the country from Macy and it's hard for her to walk back and forth, he'd need the car during his 30-day leave at home.

Five days after his arrival in Nebraska after 32 months in a Communist prison camp Sgt. Thomas' chief business still was eating. He has been besieged with invitations for "feasts."

Sgt. Thomas will report back to Ft. Riley, Kan., after a 30-day furlough.

We Wait For This--For That--But Never For News

JUST CAME to the conclusion that September is the waiting-for-this-and-that month. We're waiting for the weatherman to put on his better manners—we're waiting for rush week to end—and the Fair to begin—we're waiting for the first football game of the season, and believe it or not—we're waiting for a few fancy ideas for our Christmas shopping list.

But there is one thing for which we never have to wait—and that is news. And since we seem to have plenty of it this year we'd better begin getting it told.

NEWS COMES from Devon, Pa., this morning—by way of an announcement made by Mr. and Mrs. D. Alvin Kime, which tells of the engagement of their daughter, Mary Lois, to Dr. Lee Darrell Gartner, son of Dr. and Mrs. Herman F. Gartner of Lincoln.

The wedding is planned for Saturday, Oct. 31.

Miss Kime was graduated from the Duke University School of Nursing in June, and is a member of Kappa

Kappa Gamma sorority. She plans to continue work at Duke to complete her A.B. degree.

Dr. Gartner is a graduate of the University of Nebraska, where he is a member of Phi Gamma Delta, and the University of Nebraska College of Medicine where he is affiliated with Phi Rho Sigma fraternity. He now is one of the resident staff at Duke University Hospital, Durham, N. C.

AND THAT brings us to a popular bride-to-be whose engagement was announced recently—Miss Jane Traphagen, whose marriage to Homer Allen Yates Jr., of Norwalk, Conn., will take place on Oct. 3.

Miss Traphagen's party book is filling rapidly, and in addition to the courtesies for her we already have mentioned, we find the current week's calendar is well supplied with prenuptial affairs in her honor.

Popular Brides-Elect Honored

By all the rules and regulations laid down by time and tide—summer does not end until about three weeks hence—but for all practical purposes the late summer weddings are over, and the autumn processions begin (to our way of thinking) as soon as September puts in an appearance.

So this morning we include the September brides-elect among those who have chosen wedding dates, and we find that for each and every one the courtesy calendar is well filled.

One of the very early September brides is Miss Alice Antrim whose marriage to Dean T. Kirby will take place on Sept. 5. Recent courtesies for Miss Antrim include a dessert supper for which Mrs. A. Vahle was hostess at her home, and to which 12 guests were invited. The soon-to-be bride was presented with a miscellaneous shower.

Another courtesy for Miss Antrim was the picnic supper at Van Dorn Park when she was honored by the members of Theta chapter, Beta Sigma Phi. The evening was devoted to games and the honored guest was presented with a gift.

Also to become a bride on Saturday, Sept. 5, is Miss Helen Wieseman whose marriage to Dr. W. J. Suchy is to be solemnized at the St. Paul Methodist Church.

On Friday evening the bride-elect's mother, Mrs. Viola Wieseman, will preside at a prenuptial dinner at Lone Oak, complimenting her daughter and Dr. Suchy. Dinner places will be arranged for 18, and out of town guests will include the bride-elect's father, Joseph Suchy, his sister, Miss Olive Suchy, Chicago; Mrs. Jack Swanson of Alexandria, Va., also a sister of the bride-groom; Mrs. Ramon Hansen, Mrs. R. E. Wieseman, Mr. and Mrs. C. R. Timm, all of Osceola.

Also to become a bride on Saturday, Sept. 5, is Miss Beverly Ann Payne whose marriage to Dr. W. J. Suchy is to be solemnized at the St. Paul Methodist Church.

On Friday evening the bride-elect's mother, Mrs. Viola Wieseman, will preside at a prenuptial dinner at Lone Oak, complimenting her daughter and Dr. Suchy. Dinner places will be arranged for 18, and out of town guests will include the bride-elect's father, Joseph Suchy, his sister, Miss Olive Suchy, Chicago; Mrs. Jack Swanson of Alexandria, Va., also a sister of the bride-groom; Mrs. Ramon Hansen, Mrs. R. E. Wieseman, Mr. and Mrs. C. R. Timm, all of Osceola.

County Commissioners Enrich Oak Lake Project

The Lancaster County commissioners have contributed \$1,000 to the Oak Lake development project sponsored by the Women's Division of the Lincoln Chamber of Commerce. On unanimous approval of the board Tuesday, the money will be taken from the general fund and will become part of the \$10,000 sought by the civic organization as a start toward a long-range improvement and beautification program of the park area.

Mrs. Elinor Linch said the

funds would be used for tree and shrubbery planting, earth-filling of the area and some road improvement. The city has budgeted \$4,000 and \$5,000 is to be obtained in a current fund-raising drive, she said.

General Fund

The county donation was earmarked from the general fund after Commissioner Chauncey Barney questioned that it could be taken directly from the inheritance tax fund.

"Take it out of the general fund," said Board Chairman Russell Brehm, who moved for the contribution. To which Commissioner Chris Kuhner added:

"Don't forget to put it back (in the general fund from the inheritance tax fund) or we might run short of money later."

In other action, the board approved a special permit allowing the Lincoln Speedways to hold stock car races at Capitol Beach on Labor Day, Sept.

7, subject to general provisions of their current license.

A \$970 claim for fire-damages to the hay crop and meadow of C. J. Mitchell of Roca was referred to the county attorney.

The damage to the hay meadow (\$200) and loss of crop (\$770 for 35 tons of hay) was caused by fire set by a contractor while burning brush cleared from a highway on June 23, Mitchell contends.

Investigation Sought

"It wasn't our fire, it was the contractor's" said Kuhner, who moved the claim be investigated.

A hearing was set for next Tuesday on the \$446 claim of Mr. and Mrs. Lyle B. Eno of 538 So. 24th for taxes paid under protest.

The claimants allege that taxes for improvements were assessed for the years 1948 to 1951 on their property on which improvements did not exist.

They contend the land assessment was \$125, but \$1,500 in 1948 and \$3,000 thereafter were erroneously assessed for improvements on property described as part of Lot 10, Block 5 in the Brookline addition.

Now no one puts dishes on the driveway. But we photographed them there to show that dishes often can keep you from getting

out in the car and doing things. One thousand dishes (the weekly average for a family of four) make dishwashing a big job.

Let this can help you out with the dishes!

Hundreds of women tell us that new Lux Liquid Detergent saves them a lot of time and bother. One canful will wash more dishes than several boxes of the most popular laundry powder. And it's almost as mild on your hands as Lux Toilet Soap.

New Lux Liquid Detergent really helps you out with the dishes because it's especially made for washing dishes. Lux Liquid does the job like no washday powders can.

Nothing can touch it for getting dishes, pots and pans sparkling clean. It literally soaks them clean. It cuts away the grease. Gets between the clinging grease and the dish. Dissolves the grease.

This can in your kitchen is the next best thing to a dishwashing machine.

Another thing you'll like about Lux Liquid is the way it makes instant suds. That's because it's already dissolved. And it's almost as mild as Lux Toilet Soap.

Now, how about cost? Lux Liquid

Detergent is far more economical than the best-selling laundry powder.

Just a few drops wash the dishes. One trial will show you how little you have to use.

There's a money-back Lever Brothers guarantee, of course, but judging by the way women are raving about this new Lux Liquid Detergent, we believe you're going to like it a whole lot, too.

LEVER BROTHERS

Lux Liquid for dishes! Lux Flakes for nylons! Tests prove that Lux Flakes care can give you double the stocking wear. Get two identical pairs. Wash one pair with any strong washday powder; the other pair in pure, gentle Lux Flakes. You'll see that Lux care does keep nylon threads strong. And see how nice and mild it is on your hands.

Packed in a can as it should be — with a dripless spout

Won't break like a bottle. Won't get soggy or take up room like a box. And the dripless spout keeps the liquid from dripping down the side of the can.

New Water Main Plans Approved

Plans and a \$56,000 estimate of cost have been approved by the City Council for construction of a water feeder main in 40th from A to Randolph and Randolph from 40th to 56th.

The new main will be a continuation of the feeder line in A from 32nd to 40th on which a contract has already been let. The two new mains will provide water for the new Strauss Bros. Eastridge addition east of Piedmont and increase water pressure in all of southeast Lincoln.

Also approved was a \$12,000 estimate for the paving of 50th from South to Glade. The following bids were approved:

For 6,500 pounds of anhydrous ammonia for the City Water Department, Armour and Co. on a bid of 20 cents a pound.

Lamps for the City Light Department, Voss Electric Co. on discount price of 46.1 per cent.

Chiefs To Make Final Lincoln Appearance Tonight

Waters To Face Sky Sox In Ladies Night Game; Lindenmen Divide Pair

By NORRIS ANDERSON
Sports Editor, The Star

All too soon, a rather wonderful Western League season closes at Sherman Field tonight at 8 o'clock when the leading Colorado Springs Sky Sox face the never-say-die Lincoln Chiefs.

Given an audience of 2,802 this Ladies' Night, the Chiefs will realize a season attendance total of 90,000. To please the damsels, a total of \$250 in merchandise will be distributed along with a final glimpse of the Chiefs.

A gathering of 2,236 partisans rallied at Sherman Field Tuesday night to watch their beloved Chiefs win the opener, 5-4, and then drop the nightcap, 6-1, as the vaunted Sky Sox plate power asserted itself.

After two split doubleheaders, tonight's victor will grasp the spoils of a series that reached a summer's crescendo for high stakes. As time runs low, the Chiefs' pursuit of fourth-place will rest on southpaw Freddy Waters (10-7) tonight against Billy Pope (13-12), a righthander.

Stout-hearted Bill Denney, one of the most improved Chiefs, rode shakily to his seventh win in the opener.

Until the seventh, William had authored a three-hitter. These blow-singles by Len (Jet) Johnston, Hal Rhyne and Billy Lew—spelled a run, but none of the partisans seemed worried.

The Chiefs had amassed four big runs in the second or five (count 'em) singles by Red McQuillen, Moose Womack, Jack Caro, Walt Linden and Denney.

There wasn't a furrowed brow until the Sky Sox came to bat in the last inning. After Sam Hairston and Rhyne singled, pinch-hitter Joe Hicks belted both home with a hopping triple to rightcenter.

Hicks himself was carried home an instant later by Johnston's single. After three runs,

Through The Gate
Present total: 87,198.
Regular nights left season: One.
Season goal (including playoffs): 100,000.

the rally folded as Al Jacinto forced Johnston at second, Joe Rhyn to Fed Hancock.

Perhaps the prime Lincoln accomplishment in the nightcap was getting Hairston, a menace among menaces, to line into a double play in the seventh. Until then, Samuel had merely smashed a single, double and triple off Andrew Bush, now departed in favor of Clarence (Draw Three) Beers.

As Samuel swung for the fence in hopes of a homer and completion of the swat cycle, Beers craftily foamed him up in slow stuff.

In amassing 14 hits, including doubles by Hairston and Simpson and triples by Hairston (bad hop) and Clyde Perry, the Sky Sox put together two-run bursts in the first, fourth and sixth innings.

Despite four double plays, involving epic defending by Hancock and Caro, the Chiefs were never in the game.

Until he retired with a pulled back muscle after the seventh, Bob Simpson permitted only four hits and pretty well handcuffed the Chiefs. Their one run came in the seventh off Simpson when Hancock, one of the

By WALLY DeBROWN

If you read about the recent convention of the National Association of Chiropractors, you know some famous foot doctor claims that man may lose his toes and develop hoooves after a while . . . the reason being that a man doesn't need his toes any more. This change would be a boon to folks who constantly stub their toes or drop things on them . . . but it might be tough on shoe salesmen for a while.

The Doc says, "Compare modern toes with those of the anthropoid apes, which use them for grasping and climbing." Those of us who have few friends among the anthropoid apes may find this a little difficult to do. The doctor also remarked, "Even some primitive races can still grasp objects with their toes, but you just try to do it." Well, it isn't easy to tie a bow tie with your toes. And even for primitives it would be quite a feat!

A local gardener says anyone who thinks only the young have growing pains ought to try gardening for a while. Sometimes all it takes is a little personal experience to convince us! All it will take is one personal demonstration ride to convince you that the best buy in a new car is the value-packed new Studebaker with "that Continental look". See it today at DE-BROWN AUTO SALES CO., 1717 "O" Street. Phone 566-63. Adv.

alternate to the meet and the runner-up in qualifying, Bill Spangler by four strokes at the end of the morning round, but Spangler rallied to overtake the lead after the first three holes on the second 18. (Star Photo.)

Dick Spangler, right, Tuesday won a bid to the National Amateur tournament at Oklahoma City, Sept. 14-19, by posting a 75-69—144 total for 36 holes at the Nebraska District qualifying meet at the Lincoln Country Club. He is shown talking with the first

Yanks Trip Chicago, 3-2; Dodgers Bombard Cards

NEW YORK (P)—Eleven was Brooklyn's lucky number Tuesday as the Dodgers beat the St. Louis Cardinals 12-5.

The victory was the Dodgers' 91st of the season, marking the 11th year in the history of the club that they have won more than 90.

The Dodgers stretched their lead to 11 full games over the idle Milwaukee Braves.

It was the 11th straight triumph over the Cardinals in Ebbets Field this year.

And the 17-hit Brooklyn attack included 11 singles.

The Cards lost despite five home runs—all off Peacher Roe. That's one short of the record for a pitcher in one game and the blows ran the Cards' total for the year to 120, an all-time high for the club. Steve Bilko hit two and Stan Musial, Rip Repulski and Harry Elliott one each.

In the only other National League action the New York Giants edged Chicago 10-9. The winning run scored in the eighth when Dusty Rhodes walked, moved to third on an error and scored after Tookie Gilbert's long fly. Rhodes also homered with one on for the Giants. Ralph Kiner, Roy Smalley and Pitcher Bubba Church hit Chicago home runs.

The New York Yankees shaded the Chicago White Sox 3-2 at Chicago in the majors' only night game, widening their American League margin to 9½ games.

The Yankees scored twice in the fourth inning when with runners on second and third Phil Rizzuto faked a squeeze bunt and then singled. Mickey

Two More Polio Cases Are Reported

Polio Case
Sept. 2 Total
1953 1952
City 14 113 194
County 150 148 230
State 150 889 2250

Cities and county figures are correct, State figures are reported weekly.

The 159th polio case in Nebraska this year is Ray McDuffett, 29, Rt. 2, diagnosed Tuesday at St. Elizabeth Hospital.

McDuffett, a truck driver, has a fairly mild case of spinal polio.

Lyman Sigrest, 26, 1127 G, also is hospitalized with polio. Michael Thomas, 7, and Herbert Thomas, 3, sons of Mr. and Mrs. Herbert Thomas, 6420 Colby, are being treated at home for mild cases.

Donna Wilburger, 26, 2655 So. 13th, is hospitalized but her case has not yet been determined as polio.

Patricia Hottovy, 16, Ulysses, admitted to St. Elizabeth 10 days ago with polio, has recovered and went home Tuesday.

There were 16 new cases last week—five in Lancaster County, two in Dakota and one each in Cass, Dawes, Dawson, Douglas, Garden, Hall, Sarpy, Valley and York Counties.

Though this week is the beginning of a two-week period which has always been the heaviest for polio in the state, the outlook is comparatively good.

So far this year there have been fewer cases in the entire state than there were in the city of Lincoln alone in 1952.

Labor Day Holiday Set For Main Post Office

All departments of the Main Post Office in Lincoln will be closed on Labor Day—Monday, Sept. 7.

Postmaster O. E. Jerner also reported that all stations will be closed for the day and no mail deliveries will be made by city or rural carriers.

The regular Sunday and holiday mail collections will be made.

FEEL BETTER FAST!

Here In Lincoln

Roper & Sons Mortuary—Adv.
Hodgman-Spiale Mort.—Adv.
Wadlow's Mortuary—Adv.
Roberts Mortuary—Adv.

Some 1,200 driver's licenses were issued at the window and another 500 were handled by mail by the Lancaster County Treasurer's motor vehicle bureau on the first day—Tuesday.

Bureau Chief Lyle Stover believes the "biggest day" is yet to come as some 63,000 Lancaster County motorists obtain 1953-55 driver's licenses by Oct. 31.

The largest run during the 60-day period will probably turn out to be deadline day, he added.

Sealed proposals will be received at the office of the City Clerk of the City of Lincoln, Nebraska, up to 10 o'clock a.m., Central Standard Time, Wednesday, September 9, 1953, for the installation of a complete lighting system in Ornamental Lighting District No. 29, being Ridgeway Road from Sunburst Lane to A Street, and all of Bryan Circle, in said City, according to the plans and specifications of the City Engineer on file in the office of the City Clerk.

Plans and specifications may be seen and blank proposals obtained in the office of the City Engineer.

The City Engineer's estimate of the cost of installing this ornamental lighting system is \$4,000.00.

Each proposal must be accompanied by a certified check for \$170.00 made payable to Frank J. Miller, City Treasurer, as a guarantee of good faith.
